STONE SAWS

*Designed
and made
in Italy*

CONTROL BOARD

- Switch with release coil
- Overheat protection in the event of the disk jamming
- Mushroom-head push button to stop the machine
- Laser instrument for the maximum cutting precision (optional in standard version).

KIT WHEELS

The wheels are Ø220 mm and can be fixed at the legs by means eyebolts. Due to their conception and for the legs' inclination, are very functional and allow the machine to be easily moved if lightly lifted up by the handles.

STORAGE

Build to reduce at the maximum the encumbrance during the carriage and above all the storage space.

APPLICATION

Built to cut bricks, poroton blocks, marble blocks and all the different kind of materials for the building sector.

The cutting head and the arm are in die-casting aluminium to get the maximum of rigidity and lightness.
Quick reading indicator of the position for the cut in 2 RUNS.

An acoustic signal is activated when the phase is opposite to the direction of rotation of the diamond disk (Optional).

ORIGINAL RECYCLING PUMP

The cutting head is tilting and can be locked at the intended height.

The cutting position with sliding carriage.

LASER TRACER

- Connected directly to the net.
- Bulb with millimetrical adjustment of the ray in three space's directions.
- Lens with interchangeable protection glass.

The working table is very strong and steady.

- It slides on 2 steel square rails with 6 wheels; 4 over and 2 under.
- Every wheel has 2 ball bearings for a total of 12.
